

## User Prompt

How are ESG responsibilities structured in Siemens vs. JEENA SIKHO — do they have board-level oversight or dedicated ESG committees?

## Agents Conversation History

**Sub-question 1:** subquestion = How are ESG responsibilities structured in JEENA SIKHO? Specifically, do they have board-level oversight or dedicated ESG committees?

**worker\_agent:** answer = It appears that there is no information provided in the chunks regarding the structure of ESG responsibilities in JEENA SIKHO, including whether they have board-level oversight or dedicated ESG committees. Without specific details, I cannot provide insights on this topic.

If possible, please share the relevant chunks or data that provide details about JEENA SIKHO's ESG governance framework, board-level oversight, or dedicated ESG committees, and I will promptly assist in analyzing and structuring the information.

**Sub-question 2:** subquestion = How are ESG responsibilities structured in Siemens? Specifically, do they have board-level oversight or dedicated ESG committees?

**worker\_agent:** answer = It seems that the provided information chunks do not contain specific details about how ESG responsibilities are structured within Siemens, including whether they have board-level oversight or dedicated ESG committees. Without this specific information, I cannot provide a direct answer to your query.

However, here's how ESG responsibilities are typically structured in large multinational companies like Siemens:

- **Board-Level Oversight:** Many large corporations, especially those actively engaged in ESG initiatives, assign ESG oversight to their Board of Directors or a specific subcommittee of the board (e.g., Sustainability Committee or Governance Committee). This ensures ESG considerations are integrated into the company's overall strategy and decision-making.
- **Dedicated ESG Committees:** Companies often establish dedicated ESG or sustainability committees at various organizational levels to focus on the implementation and monitoring of ESG strategies. These committees may report to the board or senior management and include cross-functional teams.

If you have access to Siemens' sustainability reports (GRI-compliant or otherwise), BRSR filings, or any XBRL datasheets, they may contain specific details about governance structures, including ESG oversight. Feel free to provide such information, and I can refine my answer further.

## All Context Chunks

## Director Response

Based on the information provided, there is no specific data available regarding ESG governance structures for either Siemens or JEENA SIKHO. This means we lack clarity on whether these organizations have board-level oversight or dedicated ESG committees for managing ESG responsibilities. However, typical structures in large multinational corporations like Siemens often include board-level oversight and specialized committees focused on ESG matters.

### Key Points:

- **JEENA SIKHO:** No details are available about whether they have board-level oversight or dedicated ESG committees for ESG responsibilities.
- **Siemens:** No specific information is provided regarding Siemens' ESG governance structure, but large corporations typically have:
- **Board-Level Oversight:** ESG considerations integrated into strategic decision-making by the Board of Directors or subcommittees.
- **Dedicated ESG Committees:** Established committees at different organizational levels to implement and monitor ESG strategies.

### Summary:

There is no concrete information about the ESG governance structures for JEENA SIKHO or Siemens in the provided data. General practices in large corporations suggest Siemens may have board-level oversight and specialized committees, but confirmation would require access to their sustainability reports or filings.

Would you like to explore how ESG governance is structured in other companies or industries, or focus on typical governance practices under BRSR or GRI standards?
